HOLLWEG'S SUCCESSOR IS A  
DYED IN THE WOOL PRUSSIAN

(By Associated Press.)  
COPENHAGEN, July 17.—The Vossische Zeitung, the Tageblatt and the Vorwaerts of Berlin direct attention to the fact that the appointment of Dr. Michaelis was made without previously sounding parliament and that the new chancellor accepted the post without consultation with party leaders and attempts to learn whether his proposed policy was acceptable to the reichstag and consider this confirmatory evidence that the reichstag's desire for formal acknowledgment of parliamentary control of the old government was ignored.

The Vossische Zeitung, points out that to establish the principle of par-

liamentary control the reichstag has only to exercise it and says the responsibility for the present irresponsible system rests with the reichstag which lacks the vigor, initiative and unity to impose its will on the appointing of officials.

This newspaper asserts that without this will it is useless to write the parliamentary principle into the constitution while with it a formal declaration would be unnecessary and the reichstag would always be able to display an unsatisfactory chancellor or ministry.

The liberal newspapers now assume that Dr. Michaelis in his underlying political views is a mod-

erate conservative and cannot have failed in his almost forty years career in the Prussian bureaucracy to have absorbed the prevailing political tenets of that caste. They say that above all, however, he is a bureaucrat and not a politician by training, and that it remains to be seen how he will develop in an office requiring a politician and not a bureaucrat.

The Vossische Zeitung, unintentionally points a finger at this weak spot in the appointment by maintaining that Dr. Von Bethmann-Hollweg was not qualified for the post of chancellor because he was a bureaucrat and not a political leader.

(By Associated Press.)  
WASHINGTON, July 17.—Secretary Daniels told five hundred coal operators from Pennsylvania, West Virginia and Maryland that they should supply coal to the government for war in the same spirit that men offered to fight. They should consider it a privilege rather than a sacrifice on their part to supply coal needed and later adjust the prices. This course the steel producers have already agreed to. It was disclosed that the government needs three to four million tons of coal in addition to the 1,800,000 already arranged.

RUSSIANS  
MAKE WAY  
IN GALICIA

GIVE UP KALUSZ BUT CLAIM TO  
HAVE MADE GREATER  
GAINS

(By Associated Press.)  
PETROGRAD, July 17.—Russians have abandoned Kalusz, in eastern Galicia but secured the crossing of the Lomnica river. The Germans were driven from Novisk.

(By Associated Press.)  
BERLIN, July 17.—An official statement says the Russian forces which recently captured Kalusz evacuated yesterday.

PARIS, July 17.—The Germans made a strong attack on the French positions in the vicinity of Teton but were driven back.

(By Associated Press.)  
Again the Teuton allies have suffered reverses, in the loss to the Russians of a part of the village of Lodzian in the Lomnica river region of Galicia, in the repulse of an attack by the Russians northeast of Kalusz, and in the Champagne region of France, where the French drove them from positions they had recaptured, inflicting heavy casualties on them.

From Rega on the Baltic Sea to the Rumanian frontier, the Russians and Austro-Germans are engaged in battle, but except in Galicia, where the Russians continue to develop their advantage or hold back thrusts of the Teutons little has yet become known concerning the operations.

Not alone have the Russians in their drive in Galicia made considerable gains of territory but their captures of men, guns and material have been enormous. From July 1 to July 13, according to a Russian official communication, 36,643 officers and men of the Teutonic allied armies have been made prisoner by General Brussiloff's forces and 93 heavy and light guns, 28 trench mortars, 403 machine guns, and 91 guns of other descriptions have been taken.

The Germans in Champagne have

They were advised by officers of the St. Joseph Lead company, which operates the mines at Bonne Terre to stay and defend their rights.

A detachment of guardsmen was sent to Bonne Terre to prevent a repetition of the scenes of Sunday night when a mob invaded the foreign colony.

SECOND LOAN OF FIVE BILLIONS  
TO FINANCE ALLIED GOVERNMENTS  
IN PURCHASING MUNITIONS WAR

(By Associated Press.)

WASHINGTON, July 17.—Unless the unforeseen develops congress probably will be asked before adjournment of the present session to authorize another gigantic loan to the allies. The present authorization of \$3,000,000,000 will be exhausted within from three to four months at the rate at which the government is lending money to entente governments.

Indications are that the amount of the second authorization will be no less than the first and may go as high as \$5,000,000,000.

There is every reason to believe that the administration policy of financing the allied governments for purchases they make in this country will be continued during the

COUNTRY

(By Associated Press.)

Papers recently received report a big wheat crop in Rumania, much of which it is expected will be transported to Germany. The vegetable crop in Germany, with the exception of potatoes is reported by the German press to be good. The German fruit crop is bad and the potato crop is expected to be the smallest since the beginning of the war.

Nothing in the way of a settlement of the differences between the native miners and the companies as to the employment of foreign labor has been accomplished. It is being made plain to the men that the companies will not discuss a settlement until all danger of mob law has disappeared. Knowledge of this fact is having a sobering effect on the miners and the tension appreciably decreased during the day.

progress of the war and future loans will be made as in the past, at the same rate of interest the American government will have to pay and on the security of entente government bonds to be deposited in the treasury.

It is pointed out that nearly one half of the \$3,000,000,000 already has been exhausted. Should the loans during the next three months be at the same rate as during the past three months, the entire \$3,000,000,000 will be exhausted by October 25.

During the first three months the rate of lending has been approximately \$500,000,000 a month. Extended, it would mean an annual loan of \$6,000,000,000 abroad, all the funds of course, being spent in this

GREECE IS NOW

SEVERS RELATIONS WITH FOUR  
CENTRAL POWERS AND GOES  
WITH ALLIES

(By Associated Press.)  
WASHINGTON, July 17.—Uncertainty as to Greece's status in the world war was cleared away today with the receipt of official information that the Greek government not only has severed relations with all four of the central powers, but is actually in a state of war with them.

As a belligerent Greece is expected to lose no time in mobilizing her war resources and joining effectively in the common allied operations in the Balkans. The strength of the Venizelos army is placed at about 50,000 men and the remnants of the former regular army while not over 30,000 now, has at times been mobilized to a total of 200,000 men and is capable of reaching 300,000 if munitions are provided.

If office affairs were neglected it was due to political activities in the campaign for Wilson.

country for foodstuffs, munitions and other supplies. Estimated costs to the American government for its military and naval establishments during the first year of war were placed at approximately \$4,000,000,000 soon after the war was declared.

The total of these two items, it is believed was the figure Secretary McAdoo had in mind when he declared in his recent speech in behalf of the liberty loan, that the government would be called upon to raise \$10,000,000,000 during the first year of war.

Present indications are that congress will remain in session until late in October and that the war revenue bill, will be among the last of the big measures to be disposed of.
